SITE BY SITE

What to budget at each site.

Housing is an estimate of what a room or small flat costs a student in that town each month. Flights are typical return economy fares. The estimated total is for a 10-week placement and covers the administration fee, housing, a car where the site recommends one, the safety course at Italian sites, and a mid-range fare from New York. Food and day-to-day living are not included. Every town is different, so we'll talk it through with you once you know where you're going.

Figures checked October 2026. Euro amounts converted at €1 = $1.18.
